Annual Report of the
Ronald and Nancy Rohner Center
for the Study of Interpersonal Acceptance and Rejection
May, 2019 through May, 2020

™ Rohner Research Publications

Department of Human Development and Family Sciences
University of Connecticut
EXECUTIVE SUMMARY

The Rohner Center’s Annual Report encompasses 47 books, articles, and chapters either published or in press, six articles in preparation or submitted for publication (by Faculty Affiliates, Student Affiliates, and Participating Members and their students). Two dissertations/theses were completed, with many others being prepared. Affiliates received thirteen honors/awards. They presented 49 invited papers and participated in 21 conference symposia. Sixty-five research projects on topics concerning interpersonal acceptance-rejection were initiated or completed during the academic year. Twenty-two clinical, forensic, and other applied topics were explored. Rohner was invited to give 19 presentations and he was invited to be a manuscript reviewer for 40 publications. Rohner and other affiliates and participating members in the Rohner Center were involved in many “Professional Service” activities such as serving on editorial boards, and serving as peer reviewers for journals and book publishers.

**Research That Makes a Difference:**

**National and International Applications of Rohner’s**
Interpersonal Acceptance-Rejection Theory (IPARTheory) and Associated Measures

1. Use of Rohner’s IPARTheory and associated measures for assessment, intervention, treatment, and evaluation (including custody evaluation) of children and parents involved in parental alienation and estrangement. Countries involved: Bangladesh, Canada, Ireland, Italy, Macedonia, Poland, Romania, Slovenia, Turkey, U.S.A., and others. In conjunction with this work, Rohner also serves as an Advisory Board Member for educational programs for the judiciary and families in four counties in Texas. The program is “Resetting the Family: An Educational Program for Parents and Children in Conflict”.

2. Use of Rohner’s IPARTheory and associated measures with parents’ (mothers’ and fathers’) acceptance-rejection of children in Indonesia who have mosaic sex chromosome and atypical or ambiguous genitalia.

4. Application of IPARTheory and measures to street children in Burundi, Africa. The objective here is to identify potential family-related risks motivating children to go to the streets, and prevent children from going to the streets.

Research in Progress by National and International Colleagues Collaborating with the Rohner Center

Use of Measures Created by Rohner

1. Almotwaly, L. Translation of Recovery From Rejection into German and Arabic.

2. Basustaoglu, S. Using Turkish translations of Rohner’s measures in research at Middle Eastern Technical University, Ankara, Turkey.

5. Brunsting, N. Using PARQ in a survey of international students (Global Research and Assessment office) at Wake Forest University and other universities in the U.S.

6. ***Butt, Md. M.*** Inspired a group of undergrads at GC University, Lahore, Pakistan to begin research projects in the following areas. Working with F. Malik and Urdu Translation Committee on translation into Urdu of IPARTheory measures. Also providing guidance on use of PARScore6 in Pakistani research projects:
   a. Saba Khalid- explore difference between love marriages and arranged marriages using **Rohner’s** Adult PARQ Short Form mother & father versions.
   b. Tasmiya Afzaal- explore difference between love marriages and arranged marriages using **Rohner’s** IARQ and PAQ.
   c. Saba Fayyaz-Rohner’s PARQ, Child Abuse Potential Inventory x IPAR measures.
   d. Sana Naeem-intimate partner acceptance and attachment in working women and housewives using **Rohner’s** In-Law Acceptance-Rejection Questionnaires.
   e. Hira Zia- Parental acceptance and psychological adjustment in urban vs. rural adolescents in Pakistan.
f. Relative contributions of elder siblings versus parents’ acceptance and behavioral control to the psychological adjustment of younger siblings in Pakistan.

7. Choi, Y. Conducting surveys with Korean American families in Chicago to examine how acculturation influences parenting, families, and socialization among immigrant families.

8. **Diaz, C.** Evaluate parenting factors that influence psychopathology among children and adolescents (ages 6 to 18 years old) referred to our Psych department. As a control, I wish to administer the same measure (PARQ) to patients under Pediatrics and Adolescent Medicine with no psychopathology based on the DSM-5. University of the Philippines, Manila.

10. Fente, H. K. L. Family versus education among the Mizo tribes of northeast India. Translated Rohner’s measures into Mizo language.

11. **Filus, A.** Validation of Rohner’s measures (in Polish) for the Fear-of-Intimacy Project. Responsible for statistical analysis of data for international Fear-of-Intimacy Project.

13. **Giotsa, A.** Translations of IPARTheory-related measures into Greek. Adaptation and validation of early childhood acceptance-rejection in the Greek population. She coordinates the following research projects with Masters and Ph.D. students in different systems:
   a. Vengeance scale and acceptance-rejection: A research project among elderly people.
   d. Social networks and acceptance-rejection (Giotsa, A., Spiropoulou, S., & Kyriazos, T.).
   e. Teachers’ acceptance-rejection and psychological adjustment of students in primary education (Giotsa, A. & Stefanopoulou S., Kyriazos, T.).
   f. Interpersonal acceptance-rejection and emotional focused therapy: A pilot study with couples (Giotsa, A. & Tyraki, C.).
   g. Jobless people and perceived acceptance-rejection behavior of their parents during childhood (Giotsa, A. & Styliaras, D.)
   h. Grandparents and grandchildren: Transgenerational behavior patterns or not? (Giotsa, A. & Mitrogiorgou, E.).
   i. Intimate relationships and intimate acceptance-rejection (Giotsa, A. & Kyriazos, T.).
   j. Parents’ evaluation of children’s conduct: A Panhellenic study (Giotsa, A. & Poulia, I.).

14. **Giovazolias, T.** Translation and adaptation in Greek of different IPART measures (e.g. child_ PARQ, Adult_PARQ, Interpersonal Relationship Anxiety Questionnaire- IRAQ, Parental Power-Prestige Questionnaire -3PQ). He supervises the following PhD and MSc research projects related to IPARTheory:
   a. Longitudinal models for the prediction of rejection sensitivity in pre-adolescents: The role of perceived parental rejection and rumination in the development of internalizing and externalizing difficulties (Spyropoulou, E. & Giovazolias, T.)
   b. Rejection sensitivity, borderline characteristics and depression: A dyadic mediation model in a sample of Greek couples (Psoma, S. & Giovazolias, T.)
   c. Acceptance-rejection in intimate relationships and well-being: the role of forgiveness (Chardalia, O. & Giovazolias, T.)
d. Parental acceptance-rejection and interpersonal styles: The role of early maladaptive schemas (Georgiopoulou, N. & Giovazolias, T).

e. Rejection sensitivity and depressive symptoms: The mediating role of peer relationships (Zervaki, S. & Giovazolias, T.)

f. Parental acceptance-rejection as a basis for emotional eating: the role of emotion regulation and alexithymia (Liva, F. & Giovazolias, T.)

15. ***Gurmen, S. Translation of Rising & Rohner's Recovery From Rejection into Turkish.

17. Izadikhah, Z. Translation into Persian of 18 of Rohner's IPARTheory-related measures for use in Iran.

18. International Rescue Committee, Centre for Evidence-Based Intervention. Using Arabic translations of Rohner’s measures in Lebanon to conduct a study of associations between war trauma, daily stressors, mental health, and parenting practices among Syrian refugee families (Amanda Sim, PI).

19. Kjefors, J. Translation into Swedish of 18 of Rohner’s measures pertinent to the study of interpersonal acceptance-rejection.

21. ***Koltcheva, N. New Bulgarian University.
   a. Administered Rohner’s IPARTheory-related measures translated into Bulgarian for early child development research projects in Bulgaria.
   b. Organizational Acceptance-Rejection Questionnaire (developed with A. Varan, N. ***Koltcheva, & F. ***Machado) being piloted in Bulgaria, Portugal, and Turkey.
   c. Working with parental alienation group in Bulgaria to use PARQ for discriminating between parental alienation and estrangement. (Paused)
   d. Relationship between perceived parental acceptance-rejection and degree of achieved professional identity in high school students in Bulgaria.
   e. Relationship between perceived parental and teacher acceptance-rejection and students' psychological adjustment, school conduct, and academic success.
   f. Translation and adaptation of Interpersonal Rejection Sensitivity Scale for use in international project.
   g. Development of Intimate Partner Acceptance Questionnaire revision with Rohner and K. Ripoll-Nunez.

22. Kosten, T. Using Rohner’s measures for assessment in Department of Psychiatry, Baylor University, Waco, Texas.

23. ***Kourkoutas, I. E. Relations between teachers’ and parents’ warmth and behavioral control, and youths’ psychological adjustment, school conduct, and academic performance in Crete, Greece.

24. ***Kourkoutas, I. E. A study of children with social, emotional, behavioral, and learning problems contrasted to pupils with no diagnosed problems (Crete, Greece).

26. ***Lansford, J. & ***Putnick, D. International longitudinal research project translated short forms of Rohner’s parent and child PARQ: Mother and Father into Arabic, Chinese, Dholuo (Kenya), Filipino, Italian, Spanish (Colombian), Swedish, and Thai languages.

29. ***Machado, F. ERASMUS-funded project creating a student counseling structure at the Royal University of Bhutan. The project provides psychological and academic support for students, faculty, and the larger community. It combines the know-how and experience of European universities with Bhutanese culture, tradition, and practices of wellbeing and happiness, incorporating the traditional counseling model in Bhutan (seeking guidance from spiritual leaders, community elders, or family members). The training program includes IPARTTheory among other important theoretical models from Western psychology. This project helps to create Happiness and Wellbeing Centers and counselling practice in harmony with the Buddhist faith and culture in Bhutan.

30. ***Malik, F. Family violence and children’s mental health in Lahore, Pakistan. Chair of Urdu Translation Committee.
   a. Directing PhD research of two students’ research on interparental conflict and the impact of parental acceptance-rejection in relation to physical punishment.
   b. Directing MPhil research on transgender sample with main variables of parental and sibling acceptance-rejection.
   c. Translation of Recovery From Rejection into Urdu.

32. O’Sullivan, B. Using PARQ for forensic psychology in clinical practice with parental alienation cases (Dublin, Ireland).

33. ***Parmar, P.
   a. Translation of Rohner’s IPARTTheory measures into Punjabi.
   b. Developed research collaboration on emerging adulthood and its relationship to parental acceptance rejection with V. Paolo ***Senese University in Naples, Italy.
   c. Community College PAU Ludhiana, India to conduct research on emerging adulthood and its relationship to parental acceptance rejection.

34. ***Putnick, D. L. Performing data analysis for Rohner’s international Loneliness Project.

J. Measures of the Rohner Center’s Visibility and Influence

Inclusion in a listing of Institutional Resources with Some Focus on Psychology and Culture: An Addendum to Regular Curricular Programs. The list will appear in Unit 11, Teaching Cross-Cultural Psychology, Online Readings in Psychology and Culture, and cross-referenced in Chapter 1 of Oxford Handbook of culture and psychology 2nd edition.

Fulbright Program. Invited regularly to host Fulbright scholars.

Media Exposure. Continual requests for radio, newspaper, magazine, and television interviews.

Website. Coupled with the widespread use of email, the Center has found its website at www.csiar.uconn.edu to be the single greatest promoter of interpersonal acceptance-rejection theory (IPARTTheory) worldwide. The Center is contacted daily by agencies, researchers, clinicians, and other individuals to answer queries and provide resources, as noted throughout this Annual Report.

Handbook. There are now over 1,500 known users of Rohner & Khaleque’s Handbook for the Study of Parental Acceptance and Rejection. Instruments by Rohner published therein are used especially often in basic and applied research, but also in clinical practice, court proceedings regarding custody and other issues, foster and adoption placement, and in parenting education programs (often in the context of pre-test and post-test evaluations). The Handbook is also one of the most frequently requested texts from the UConn Interlibrary Loan Department. The Handbook is translated into Italian and is being translated into Turkish by scholars in those countries. Rohner’s The Warmth Dimension is translated into Greek, Korean, and Persian languages. It is now being translated into Bulgarian.
Dissertations and Theses. Over 260 doctoral dissertations and masters theses in the U.S. and internationally are known to have been completed using research instruments (especially the Parental Acceptance-Rejection Questionnaire, the Personality Assessment Questionnaire, the Physical Punishment Questionnaire, and more recently the Intimate Partner Acceptance-Rejection/Control Questionnaire) created by Rohner. Many other theses and dissertations are now in preparation internationally.

Publications. More than 700 books, chapters, and articles are known to have been published using research instruments created by Rohner. Many others are in preparation, and new ones are regularly discovered. The Rohner Center maintains an online bibliography of writings on interpersonal acceptance-rejection showing more than 5,000 entries.

Translations. The PARQ, PAQ, and other measures created by Rohner are known to have been translated into more than 65 languages and dialects. Newer instruments are now being translated for use in intracultural and cross-cultural studies. These include:

- Interpersonal Rejection Sensitivity Scale (IRSS)
- Intimate Adult Relationship Questionnaire [IARQ]
- In-Law Acceptance-Rejection/Control Questionnaire [ILAR/CQ]
- In-Law Acceptance-Rejection Questionnaire (Short form) [ILARQ]
- Interpersonal Relationship Anxiety Questionnaire [IRAQ]
- Parental Power-Prestige Questionnaire [3PQ]
- Gender Inequality Scale [GIS]
- Early Childhood PARQ [ECPARQ]
- Grandparent Acceptance-Rejection Questionnaire [GARQ]

K. New Measures Created

Data archive. Numerous data sets (computer files), publications, etc. are gathered internationally and archived in the Rohner Center for scholarly research and applied practice. Data storage is also provided on the Google cloud at PARScore6.appspot.com.
